1. Executive Summary

This Statement of Work ("SOW") defines the services, deliverables, responsibilities, timelines, governance framework, and commercial terms for the design, development, testing, deployment, and support of the AES Service Application – Standard Tier.

The solution includes:

- Responsive Web Portal
- React Native Android Application
- React Native iOS Application
- Backend APIs & Database
- DevOps Infrastructure & Deployment

The objective is to deliver a scalable, secure, and production-ready customer service management platform supporting ticketing, engineer dispatch, SLA management, notifications, reporting, and administration.

2. Project Overview

Item	Details
Project Name	AES Service Application – Standard Tier
Reference Number	AES-SOW-2026-002
Client	Arial Engineering Solution
Service Provider	Mahender Vengala & Hitansu Parichha

Item	Details
Contract Value	₹5,78,000
Duration	3 Months + 1 Month Support
Platforms	Web, Android, iOS
User Roles	Customer, Ops Manager, CRM Agent, Site Engineer, Admin

3. Detailed Scope of Work

Phase 1 – Discovery & Planning

- Requirement workshops
- Business process mapping
- Solution architecture
- User journey definition

Phase 2 – UI/UX Design

- Wireframes
- High-fidelity screens
- Responsive design
- Approval iterations

Phase 3 – Web Portal Development

- Customer Portal
- Admin Dashboard
- Authentication
- Reporting & Analytics

Phase 4 – Mobile Application Development

- React Native Android App
- React Native iOS App
- Push Notifications
- User Authentication

Phase 5 – Backend Development

- REST APIs
- Database Design
- Notification Engine
- Security Layer

Phase 6 – Testing & Deployment

- QA Testing
 - UAT Support
 - Production Deployment
 - App Store Submission Support
-

4. Deliverables Matrix

Deliverable	Description
Web Portal	Production-ready web application
Android App	Play Store ready application
iOS App	App Store ready application
Backend APIs	REST APIs and integrations
Database	Schema and deployment scripts
Documentation	Technical & User Documentation
Training	Two operational training sessions

5. Project Governance

Governance Team

Service Provider

- Project Manager
- Technical Lead
- Development Team
- QA Team

Client

- Project Sponsor
- Business Owner
- UAT Representative

Communication Plan

Activity	Frequency
Weekly Progress Review	Weekly
Steering Committee Review	Bi-weekly

Activity	Frequency
UAT Sessions	As Required

6. Project Timeline

Phase	Duration
Discovery & Planning	Week 1
Design	Weeks 2-4
Development	Weeks 5-10
Testing & UAT	Weeks 11-12
Deployment	Week 13
Warranty Support	Month 4

7. Acceptance Criteria

Project deliverables shall be deemed accepted when:

- Approved scope is completed.
- Critical defects are resolved.
- UAT sign-off is received.
- Production deployment is completed.
- Documentation is delivered.
- Training is completed.

8. Risk Management Plan

Risk	Impact	Mitigation
Delayed approvals	Schedule impact	Defined approval timelines
Scope changes	Cost increase	Change control process
Third-party outages	Deployment delay	Contingency planning
Store approval delays	Go-live delay	Early submission

9. Commercials & Payment Terms

Total Contract Value: ₹5,78,000

Milestone	Percentage	Amount
Project Kickoff	30%	₹1,73,400
Design Approval	20%	₹1,15,600
Development Sign-off	30%	₹1,73,400
Production Go-Live	20%	₹1,15,600

Payment is due within seven (7) business days of invoice issuance.

10. Recurring Costs (Not Included in Contract)

The following third-party subscriptions, platform fees, infrastructure costs, and licensing charges are not included in the Contract Value specified in this Statement of Work. These costs shall be procured, owned, and paid directly by the Client to the respective service providers.

The figures below are indicative estimates only and may vary based on usage, transaction volume, infrastructure requirements, and vendor pricing revisions.

Item	Approximate Cost	Notes
Apple Developer Program	USD \$99/year	Required for Apple App Store publication. Maintained under the Client's account.
Google Play Developer Account	USD \$25 One-Time	Required for Google Play Store publication. Maintained under the Client's account.
Google Maps Routes API (Engineer ETA)	USD \$5 – \$20/ month	Actual cost depends on active usage and route calculations.
WhatsApp Business API	Approx. ₹0.20 per utility message + platform fee	Applicable for booking confirmations, engineer ETA notifications, service updates, and customer communications.
Transactional Email Service (Amazon SES or equivalent)	Approx. USD \$0.10 per 1,000 emails	Used for OTPs, receipts, reports, and system notifications.
Payment Gateway Transaction Charges	Variable	Charged separately by the selected payment gateway provider based on transaction volume.
Domain Registration / Renewal	₹800 – ₹2,000/year	Depends on domain extension and registrar.

Item	Approximate Cost	Notes
SSL Certificate	Free	Let's Encrypt SSL certificates can be used and renewed automatically.
Cloud Hosting / Dedicated Server	₹2,000 – ₹12,000/ month	Based on infrastructure sizing, storage, traffic volume, and availability requirements.
DLT Registration (TRAI Compliance for SMS)	₹15,000 – ₹25,000 One-Time	Mandatory for SMS-based OTP and notification services in India.
SMS Charges	Approx. ₹0.20 per SMS	Applicable for OTPs, alerts, and transactional messages.
GitHub Team Plan (Optional)	USD \$4 per user/ month	Required only if the Client prefers private repositories under its own GitHub organization.

Important Notes

- All recurring costs listed above are outside the scope of this agreement and are not included in the Contract Value.
- The Client shall be solely responsible for purchasing, renewing, and maintaining all third-party subscriptions, infrastructure services, developer accounts, and compliance registrations.
- The Service Provider may assist with setup and configuration activities; however, ownership, billing, and renewal responsibility shall remain with the Client.
- Any increase in vendor pricing, cloud infrastructure charges, API usage fees, messaging fees, or platform subscriptions shall be borne by the Client.
- The Service Provider shall not be liable for outages, account suspensions, quota limitations, pricing revisions, or service disruptions caused by third-party vendors.

11. Maintenance & Support Plans (Post-Launch – Optional)

The following maintenance and support plans are available to the Client after completion of the included 30-day warranty/support period. These plans are optional and are not included in the Contract Value specified in this Statement of Work.

A separate Support Agreement shall be executed for any plan selected by the Client.

Plan	Monthly Cost	Coverage
Basic Maintenance	₹12,000 / Month	Bug fixes, security patches, and 4-hour email response SLA
Standard Support	₹25,000 / Month	All Basic Maintenance services plus minor enhancements, same-day phone support, and monthly activity reports

PlanMonthly
CostCoverage

Premium Dedicated	₹45,000 / Month	All Standard Support services plus priority feature development and a dedicated developer for up to 10 hours per month
----------------------	--------------------	--

Additional Terms

- Unused support hours under any plan shall not be carried forward to subsequent months unless explicitly agreed in writing.
- Feature enhancements requiring significant development effort may be quoted separately.
- Third-party licensing, hosting, infrastructure, SMS, email, and platform fees are excluded from support plan pricing.
- Support services shall be provided during standard business hours unless otherwise agreed.
- Emergency production issues shall be prioritized according to the applicable support plan SLA.
- The Service Provider reserves the right to revise support plan pricing with thirty (30) days prior written notice.

The Client may subscribe to, upgrade, downgrade, or discontinue any support plan by providing written notice and executing the appropriate support agreement.

12. Warranty & Support

- 30-day post-production warranty
- Bug fixes for delivered functionality
- Monitoring and stabilization support

Excludes:

- New features
 - Third-party service failures
 - Infrastructure outages outside Service Provider control
-

13. Client Responsibilities

The Client agrees to fulfil the following responsibilities to ensure timely and successful delivery of the project:

- Designate a primary point of contact for all project communications, clarifications, approvals, and sign-offs.
- Provide timely feedback, approvals, and acceptance decisions at each milestone stage as specified in this Statement of Work.
- Supply all required brand assets, including logos, colour palettes, fonts, images, content, and marketing materials, within five (5) business days of project commencement.
- Maintain and fund the Apple Developer Account (₹8,400 per year) and Google Play Developer Account (₹2,000 one-time fee) under the Client's ownership and control.

- Procure and maintain all required third-party subscriptions and services, including cloud hosting, domain registration, SMS gateways, email providers, and other external services required for project implementation.
- Provide all necessary access credentials, API keys, documentation, and permissions required for integrations with third-party systems.
- Ensure at least one authorised representative is available during User Acceptance Testing (UAT) to review functionality and provide formal sign-off.
- Respond to Service Provider queries, requests for clarification, and approval requests within two (2) business days to avoid project delays.
- Review deliverables within the agreed review period and provide consolidated feedback wherever possible.
- Acknowledge that delays in approvals, content delivery, access provisioning, or decision-making may result in corresponding adjustments to the project schedule.

Failure to fulfil the above responsibilities may impact project timelines, delivery commitments, and resource allocation. Any resulting schedule extensions shall not constitute a breach of this agreement by the Service Provider.

14. Confidentiality & Data Protection

Both parties shall maintain strict confidentiality regarding source code, business information, customer data, documentation, and commercial terms.

15. Intellectual Property Rights

Upon receipt of full payment:

- Source code ownership transfers to Client.
- Design assets transfer to Client.
- Documentation transfers to Client.

Reusable frameworks, utilities, and generic development assets remain the property of the Service Provider.

16. Limitation of Liability

The Service Provider's aggregate liability shall not exceed the total amount paid under this agreement.

Neither party shall be liable for indirect, incidental, consequential, or special damages.

17. Termination Clause

Either party may terminate this agreement with fifteen (15) days written notice.

The Client shall compensate the Service Provider for all completed work up to the termination date.

18. Governing Law

This agreement shall be governed by the laws of India.

Any disputes shall be subject to the exclusive jurisdiction of courts located in Hyderabad, Telangana.
